7. Weather (Any special climatic features : like, temperature, relative humidity, sunshine hours)

Northeast monsoon was active and October month this year witnessed average rains in both the taluk. The weather in most of the days was foggy; lack of sun light, few days rains accompanied with gusty winds, thunder and lightning. Due to the light rains and misty weather there has been a freezing feeling for few days. The effect of maximum temperature has

started to wane from 29 °C to 21 °C due to the high humidity.
